Link Technologies is recognized at the annual TechNevada Honors Awards

On October 19, 2011, Link Technologies was honored to be recognized in the category of Tech Company of the Year at the annual TechNevada Honors Awards dinner hosted by the Technology Business Alliance of Nevada (TBAN).

About Link Technologies

Link Technologies (Link Tech, LLC), a Las Vegas based, certified 8(a), SDB, WOSB, and DBE founded in 2000, is a professional services solutions and staff augmentation company with headquarters in Las Vegas, Nevada. Link Technologies offers clients cost-effective, consulting-based solutions, and is dedicated to helping clients solve the complex challenges created by today's global business environment. Link Technologies offers information technology (IT) solutions and services; Project Management; Project Planning; Cyber Security Support; Engineering Support; Performance Assurance and Organization Improvement; and Business Support Services. Link Technologies holds Top Secret clearances supporting clients that include both the Commercial and Federal sectors (DOE, DoD, and DHS), as well as local and state government entities. Link Technologies merges client expectations, appropriate staffing talent and cutting-edge technology to deliver innovative and timesaving solutions. The result for the client is a highly visible and productive resource, giving the client more time to pursue beneficial business opportunities.

Link Technologies' mission statement is simple. "We provide qualified personnel in order to meet our clients' changing needs, allowing our clients to focus on their business." Link Technologies' principle philosophy and key to continued success is the quality delivered. At Link Technologies, quality does not come with a price tag; it is delivered in every operating capacity as a standard. Link Technologies' employees are highly skilled at delivering quality the first time and every time, no matter how complex the objective. Link Technologies' Mission Statement on quality will continue to be the driving force for shared success.

Link Technologies has realized 30% growth in the last three years, expanding offices into Philadelphia, PA and Aiken, SC. In 2011, Link Technologies was named one of the fastest growing IT Services Companies on the Inc. 500/5000 list. This year alone Link Technologies has doubled in size and we look forward to continued growth and success.
